Preconstruction
Specialist

Jared Carlson
Preconstruction
Specialist

John Schober
Preconstruction
Specialist

A decorative graphic consisting of several overlapping geometric shapes in blue, green, and gold. The shapes include triangles and diamonds, some pointing towards the center and others towards the corners, creating a dynamic, abstract composition.

“

BBP brings together three of the nation's leading heavy civil contractors and technical bridge builders, with a focus on delivering complex projects through the Construction Manager / General Contractor (CMGC) delivery method.

Our Joint Venture

Stacy and Witbeck Inc.

- [Stacy and Witbeck, Inc.](#) is a recognized leader in CMGC transit and transportation projects in dense urban environments.

Traylor Bros., Inc.

- [Traylor Bros., Inc.](#) has delivered cutting-edge construction services for more than 77 years, with more than 135 complex bridge construction projects completed, including significant upgrades to the Hawthorne Bridge in Portland.

American Bridge Company

- [American Bridge Company](#) has more than 120 years of experience building some of the world's most recognizable bridges, including the original Burnside Bridge more than 100 years ago.

Earthquake Ready Burnside Bridge Replacement Project

Multnomah County

[Multnomah County](#) intends to replace the nearly 100-year-old Burnside bridge with a seismically upgraded structure aka “earthquake ready” since it is a regional lifeline within the City of Portland.

CMGC

A CMGC contracting mechanism for construction of the bridge was approved in January 2022. The project is nearing the procurement phase and the BBP team will be looking for subcontractors for subsequent phases.

Working with the Community

Small, Local, Disadvantaged Business Inclusion

- DBE Goal
- Aspirational Goals
- Our team's commitment
- Opportunities in preconstruction and construction

Workforce Development

- Robust workforce development requirements
- Inclusion of women and people of color
- Outreach during preconstruction to diverse populations, schools, and community organizations
